

Digitisation of value streams

From cards on the wall to a digital value stream model in seconds

Build a value stream with
cards from the value stream
suitcase.

Take a photo
with the SimVSM
app.

Automatic **digitisation**
of the model for further
processing in the app.

Standardised

Case and app ensure uniform, centrally
available documentation of all value streams.

Efficient

Faster digitisation of value streams with higher
quality through automatic error detection.

User-friendly

Easier lean application enables more frequent
use, increases efficiency and saves resources.

Relieving

No more manual marking, employees focus on
analysis and improvement.
